

LEYA ROCKING LOUNGE CHAIR

It's a proven fact that swaying back and forth in a rocking chair puts you in a good mood. The Leya Rocking Chair lets you do just that. It's like the Leya Swing Seat, but on rockers, and has all of the same comfort as other members of the Leya family. Designers Birgit Hoffmann and Christoph Kahleyss took plenty of time to make the chair just right, especially when it came to shaping the rockers. The curved bands allow the perfect amount of movement while the classic Leya Lounge Chair seating shell offers all the usual stability and comfort.

BIRGIT HOFFMANN & CHRISTOPH KAHLEYSS

Birgit Hoffmann (*1968) and Christoph Kahleyss (*1963) both studied industrial design in Kiel. Since 2010 they worked together for international renowned companies. Beside furniture they also work on several interior design projects.
